

COMPUTING: Our Computing topic for this term is Programming and Games. The children will learn that instructions need to be correctly sequenced to achieve specific objectives and be able to predict the outcome of simple given programs. Furthermore, they will investigate the different options presented within a simulation, making informed choices and testing their own predictions. We will also be reminding ourselves of internet safety throughout the term.

HUMANITIES (HISTORY AND GEOGRAPHY): During the first half term, our humanities topic will focus on pre-history. The children will learn about life in Britain during the Stone Age and Bronze Age, thinking about the different ways we can find out about the past. In the second half term we will begin our Invaders & Settlers topic, focusing mainly on historical viewpoint and the Celtic way of life.

THE ARTS including MUSIC: Our Art topic for the first half term is Stone Age painting and ornaments. During the second half term, the children will design and make Celtic roundhouses and Celtic crosses. Music lessons this term will focus on "composition and beat". The children will be creating accompaniments and sound pictures reflecting sounds in our local environment. They will also be playing musical games and singing and composing to build into a performance.

PE, HEALTH AND WELL BEING: Every Monday the children will have games lessons where they will learn and develop the skills of netball and football. Alongside this, the children will also develop their gymnastic and athletics skills during their Thursday PE lesson. Our PSHE lessons will focus on the topics of 'Being Me' and 'Celebrating Differences'.

FRENCH: The children will learn simple greetings and conversations under the topic of "Getting to know you".

HOW YOU CAN HELP AT HOME: Please ensure that you continue to read regularly with your child at home as this will support all areas of the curriculum. Can parent/carers also ensure they initial the reading diary each time they hear their child read. The children will have weekly spelling and times table tests so please support us by practising these with your children. Homework will be set on a Thursday to be handed in by Tuesday.

Autumn 2018

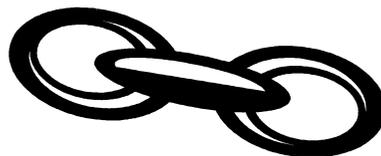

Year 3

The aim of this booklet is to give you a broad understanding of the subjects and topics the children will be learning about this term. We hope that it will help us to strengthen our learning partnership and benefit the children.

Class teacher: Miss Garsrud

English

Maths

Reading:

The children will have numerous reading opportunities throughout the week. There will be weekly guided reading sessions where a carousel of activities will take place. Every child will read to an adult at least once each week, either as part of a group or individually. The children will also practise their comprehension skills through a range of questions and answer activities.

Writing:

During English lessons, the children will have the opportunity to engage in a wide variety of text types. Our narrative focuses for the first half term will be writing activities focussed around Roald Dahl's BFG and adventure stories. The children will also develop their poetry skills. During the second half term, the children will be writing instructions and setting descriptions based on engaging video clips. Throughout the term, the children will be working on developing their writing style, concentrating especially on including powerful and imaginative vocabulary, ISPACE sentence openers and accurate punctuation.

Grammar, Spelling and Handwriting:

Grammar will be a key focus within English lessons throughout the year. This term the children will be expressing time and cause using conjunctions, adverbs and prepositions. They will also be introduced to inverted commas for punctuating direct speech. The children will have weekly spellings to learn at home. These will be set on a Thursday and tested the following Tuesday. Homework will be set on a Thursday to be handed in by Tuesday. Handwriting and presentation will also remain an important focus throughout the term.

In Maths lessons this term the children will be reading, writing, comparing and ordering whole numbers up to a 1000. We will develop strategies to count on and back in repeated steps and will revise our mental and written calculation methods. The children will learn how to read and write standard metric units including their abbreviations. They will describe and visualise 3D and 2D shapes and also develop their understanding of angles. Throughout the term the children will also have the opportunity to explore a range of problem solving activities. Our times table focus for the term will be the 3 times table which we will learn through games and songs.

Science:

Our first topic focuses on the importance of nutrition for animals and humans. The children will look at the importance of eating a varied and healthy diet. We will also begin to look at our digestive system and the effects of too much sugar on our health.

Our second Science topic is based around forces and magnets. We will be looking at how forces make moving objects speed up and slow down, change direction or change shape.

RE and WORSHIP:

Our worship theme this term is based on the Christian values of belief and identity. Our RE lessons during the first half term will focus on the story of the Creation and the School's celebration of Harvest. During the second half term, we will be thinking about what it means to follow God, focusing particularly on the story of Noah. We will also spend some time thinking about what it means to be a Christian at Christmas time.
