

COMPUTING:

Internet safety will be taught as a discrete subject at the beginning of all topics. The children will revisit spreadsheet modelling to find answers to a real life problem. This involves using formulae and explaining its effect whilst presenting their answers in a report, using graphs as appropriate.

HUMANITIES:

The children will develop their map work and field work skills and compare their local area to other areas of the UK and the world. In History, children will learn about World War 2- with topics including the lives of children who were evacuated; use of propaganda; rationing and how the role of women changed during the war.

THE ARTS including MUSIC:

The children will explore art linked to creation and animals. In addition, the children will create images inspired by their World War 2 learning. Kick London will be providing dance lessons inspired by the words of the Gospel.

PE, PERSONAL, HEALTH AND WELL BEING:

The children will swim this term. They will develop their skills in invasion games: netball, football and tag rugby. In PSHE the children will learn about 'Being Me in My World' and 'Celebrating Difference'.

FRENCH: (ONLY YEARS 3-6)

In French this term, the children will recap prior learning from years 4 and 5 including describing themselves. They will learn vocabulary around the topics of 'Let's Visit a Town', including buildings we see in our environment, for example, church, shops, library and 'Let's Go Shopping' which includes general phrases needed for buying items from a shop.

HOW YOU CAN HELP AT HOME:

Encourage your child to share and explain to you what s/he has been doing at school.

Encourage sustained, independent reading from a quality novel for at least ten minutes a day.

Ensure your child has instant recall of mathematical facts such as:

times tables; number bonds to 10, 100, 1000; doubling and halving including odd numbers; understanding relationships between fractions, decimals, percentages— $1/2 = 0.5 = 50\%$.

Encourage independence and use of their diary so your child can organise themselves

BROXBOURNE CE PRIMARY SCHOOL

Learning Links

Autumn 2019

Year 6

The aim of this booklet is to give you a broad understanding of the subjects and topics the children will be learning about this term. We hope that it will help us to strengthen our learning partnership and benefit the children.

Class teachers: Miss Clifford and Mrs Wood

English

Maths

Reading: Opportunities to read a range of fiction and non-fiction, silently and aloud, in groups and alone will be provided to:

- develop an understanding of a range of texts and love of books;
- demonstrate understanding of text raising the key points;
- Further develop the use of inference and deduction (i.e. What sort of person was...? Does this story explain why...?:)
- refer to text in explanations;
- express preferences and opinions commenting on significant ideas and themes;
- explain words/phrases in the context of the text;
- discuss and investigate different genres.

Writing: The genres of non-chronological reports, explanation texts, narrative, poetry, diaries and letters, as well as cross-curricular activities, will be provided for children to develop their writing skills to produce:

- sequenced, logically related events;
- lively, thoughtful, sustained ideas, appropriately paced, showing an awareness of the reader;
- well organised writing which has been revised and redrafted in the light of discussion;
- grammatically accurate complex sentences to extend meaning;
- writing with correct use of tenses, pronouns and adventurous, well chosen vocabulary;
- correctly spelt polysyllabic words that conform to regular patterns.

Grammar, spelling and handwriting:

The children will focus on developing a broad vocabulary; understanding the grammatical functions of words; understanding complex sentences and how to use them; to proof read and correct their own work.

The children will:

- explore numbers up to ten million;
- use a range of mental methods;
- revise formal written methods for the four operations;
- recognise the relationship between fractions, decimals and percentages, and express them as equivalent quantities;
- Use mathematical reasoning to solve missing number problems;
- Build their resilience in maths through open-ended word problems.

SCIENCE: The children will cover the topics of Evolution and Inheritance, Animals (including humans) and Living things and their habitats. Within these topics, children will

- make predictions;
- recognise the importance of fair testing;
- identify and name the main parts of the human circulatory system and describe functions of the heart, blood vessels and blood.

RE and WORSHIP:

This term's Christian Values are Equality and Compassion.

In the first half of the term the children will discuss 'Creation and Science: Conflicting or complementary?' And 'What does it mean if God is holy and loving?' After half term, we discuss 'how can following God bring freedom and justice' and was 'Jesus the Messiah?'
